Career Objective

Aspiring B.Tech in Computer Science student eager to contribute to an innovative organization. Passionate about tackling challenges and utilizing technical skills to develop impactful solutions. Seeking opportunities to grow and make a significant contribution in the tech industry.

Education

B V Raju Institute Of Technology

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.18 / 10.00)

2021-present

Medak, Telangana

Abhyaas Junior College

Intermediate (94%)

2019-2020

Hyderabad, Telangana

Projects

Enhancing Object Detection and Tracking Using Surveillance Video Camera Using YOLOv8 | *python,machine learning*

- The model architecture we took is highly customizable and can be trained on custom datasets for specific object detection tasks.
- YOLO is designed to achieve real-time object detection making it suitable for various applications.

Spotify clone | *HTML,CSS,Java script*

- Developed a responsive clone for spotify using HTML,CSS and javascript and It operates on local storage of the device.
- Ensured that the website is fully responsive and optimized for seamless performance across all devices, including desktops, tablets, and mobiles.

Technical Skills

Languages: Java , C++ , C , HTML , CSS , Java script

Technologies: Mongo DB, Express.js, React.js, Node.js, Tailwind CSS

Achievements

- Presented research paper "Enhancing Object Detection and Tracking from Surveillance Video Camera Using YOLOv8" at the International Conference on Information Technology for Sustainable Development (ICRAIS). Subsequently selected and published in IEEE Xplore Digital Library.
- Completed Soft skill course from NPTEL.
